LETHARGY MARKS MARKET SESSION

Rumors From Border and Uncertainty in Political Situation Cause Cautions.

New York, June 13.—Somewhat to the avowed discontent of the trading element, which relies on sustained activity in any given direction in order to shape its notions of market tendencies, stocks today inclined from the outset towards a moderate lethargy in which some saperficial heaviness developed. There was no change in the attitude of the financial district towards the political situation, as it has been outliving itself, but this was no reason why stocks should have been expected to persist without in-terruption in the advancing movement which they have been carrying on lately. which they have been carrying on lately. Advices from the European war were construed optimistically in the light of the further progress made by British consols in the improvement which began over a week ago. Matters of domestic politics, although the nature of the Presidential campaign has been pretty well settled, still contained enough fringes of uncertainty to explain the cautious action of the share list. Before the close, however, an intimation of the inherently sound position of the list was conveyed through the arrest of decline in most directions by a display of rising strength, in which the conper where figured condirections by a display of rising strength, in which the copper shares figured con-

New York List Loses Ground. The action of the New York market is described by a correspondent of W. B. Hibbs & Co. as follows:

Delay by Col. Roosevelt in announcing definitely his attitude toward Charles E. Hughes' candidacy, and the extent to which Col. Roosevelt will participate in the campaign, is resulting in some uncertainty among the New York brokers. Given the aggressive and active support of Col. Roosevelt for Hughes, Wall Street feels that the latter's election will be well assured, but with the Colonel inactive and his followers uncertain, the result is regarded as uncertain.
